

Florida Learners Permit

Using Computers at the Library

It's easy for teenagers to complete their requirements to get a Florida Learner Permit with the computers at your local library. Online courses allow you to come and go (login and logout) and you can use a different computer each time you login, if necessary.

Step 1: Complete the four hour Drug and Alcohol Florida DMV required course online.

About the Course: DATA Course Online (called the Drug Alcohol Traffic Awareness course and also called the Traffic Law and Substance Abuse and Education). You are eligible at age 14 ½ years to complete the DATA course. This is a four hour course that is similar to reading a book on the Internet. The course allows you to come and go as often as you like and you can use any computer with Internet access. The course covers traffic laws and the affect drugs and alcohol have on driving.

Step 2: Pass the written DMV test on Road Signs and Road Rules.

About the Test: This test is now available online to students who have: 1) Completed the DATA course online; and, 2) The student must be 15, 16 or 17 years old. It is important to study in advance of taking this test online, each question is timed.

Free Practice Study Guide: On www.HighSchoolDriver.com you will see a free study guide to test your knowledge on the road signs and road rules.

How to Register: You are only offered the written DMV test after first completing the DATA course online. The cost is \$19.95 online and test re-takes cost \$19.95 (you can only take it 3 times online so it's important to study in advance and pass it the first time.)

*Note: The DMV permit test on Road Signs and Road Rules can also be taken at a local drivers license office. You must take your Certificate of Completion for the four hour DATA course with you.

Step 3: Drivers License Office

What to Bring: Once you complete the DATA course online and/or the DMV permit test online, a Certificate of Completion will be mailed to you. You then take this Certificate to a drivers license office to get your picture taken. You will need a parent to sign a consent form and two original forms of ID (example: birth certificate and social security.)

Florida DMV Approved Websites that offer both the DATA course and DMV test online:
